Re: World Trade Center Litigation, 21-MC-100/103(AKH)  
Robert Sienkiewicz, Index 10-CV-6711-AKH

Dear Judge Hellerstein,

With reference to the **Sienkiewicz case**, above referenced, after further review of our file, we have determined that the ECF system reflecting this case as a 21MC100 (AKH) matter is incorrect. Due to the locations of the work alleged, both on and off site, it should be classified as 21MC103 (AKH).

On similar previous requests on other cases, the Clerk of the Court has asked if we could make the request first to your Honor and we are following said procedure here.

**We therefore request that the Court grant this request to re-classify the above referenced matter from the 21MC100 (AKH) master docket to the 21MC103 (AKH) master docket and ask the Court to So Order this letter request.**

In our recent listing of active cases circulated to the defense at the Court's direction, the case was properly included as a 21MC103 (AKH) case, and such was reflected on subsequent pleadings as well. This letter has been circulated to Patton Boggs as counsel for the City of New York and as defense Liaison, 21MC100(AKH) and they have no objection.

Respectfully,

s/  
Robert Grochow

CC: Patton Boggs

*Reclassification will require a motion, identifying if any of the def'ts have settled the amount of settlement, which def'ts have settled, and which have not. Also, the motion has to be re-formed.*
